when scrolling overlapping

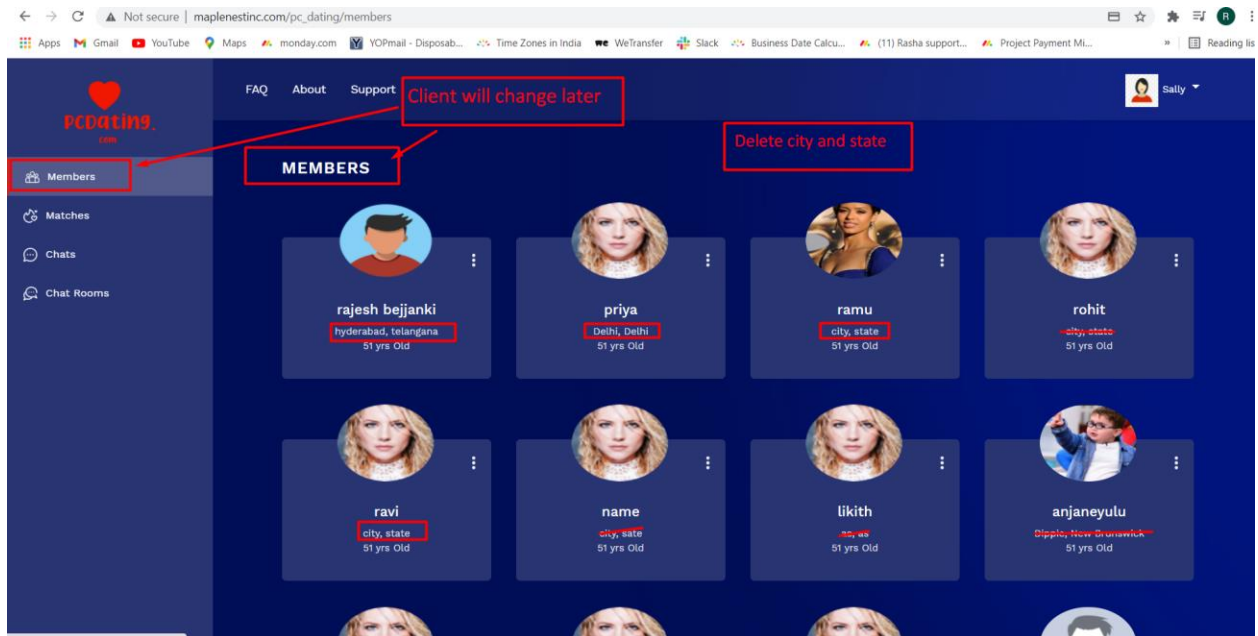

will this be username displayed ?

use more user friendly calendar and format MM/DD/YY

Change to Describe yourself and in the note Type some words to describe yourself

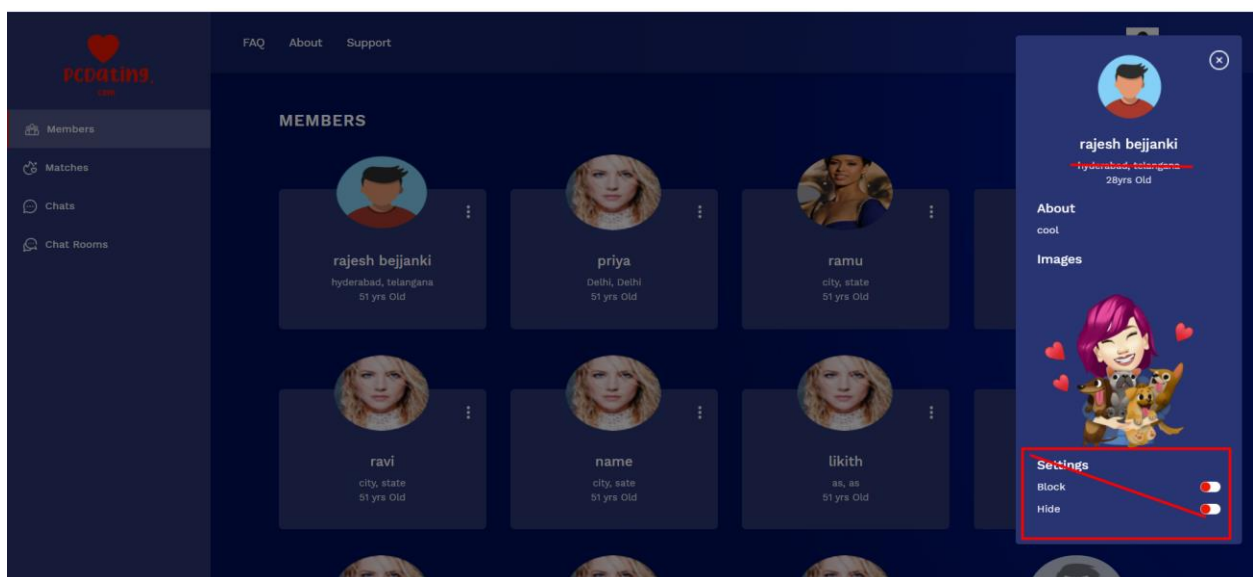

Add Hobbies and interests

Save Changes

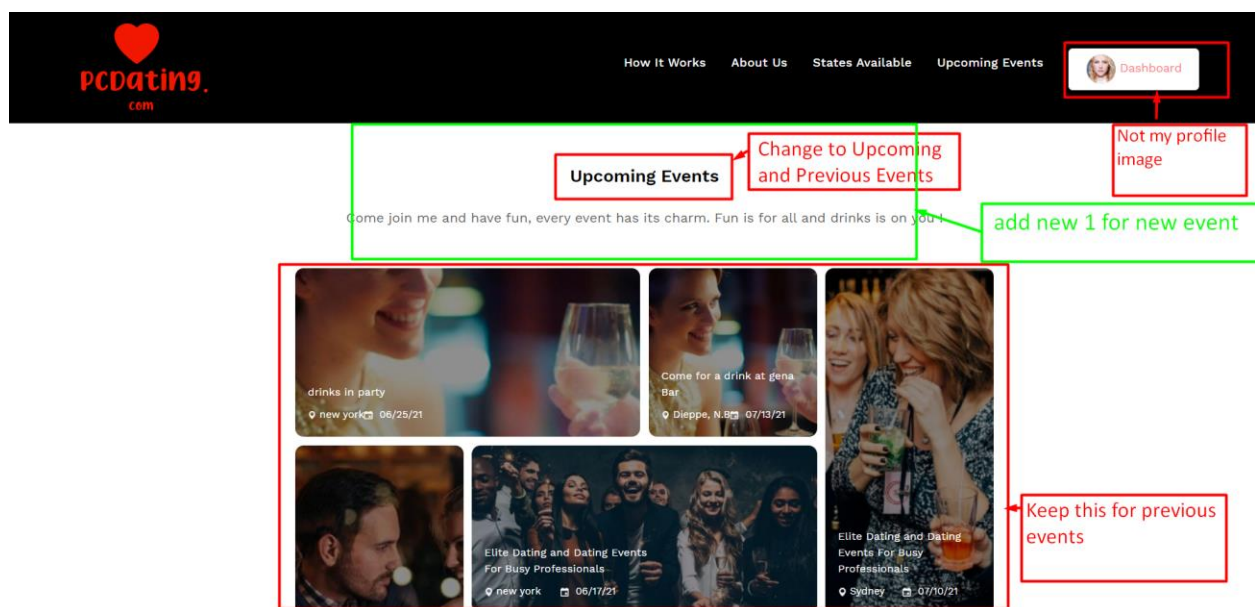

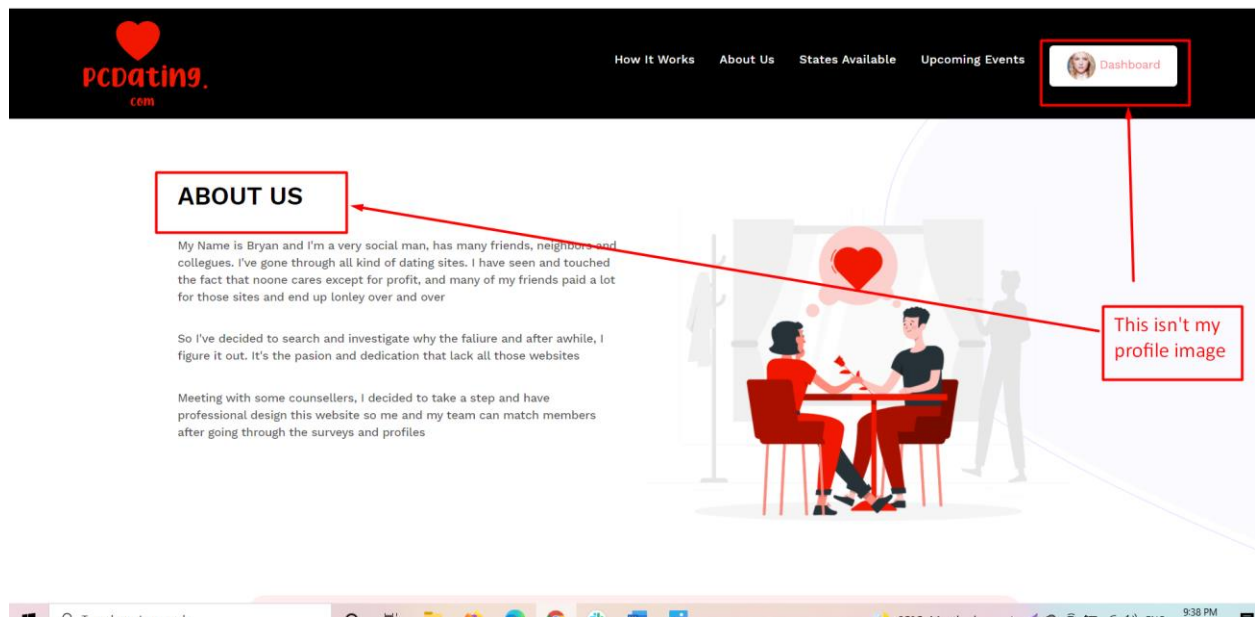

Clients wants to choose certain profile in this page about only 20 and will change them manually every month OR

Just keep first 20 new registration and change them by new registration every month

Client want when user register, need to be directed to matches obligatory before he look around

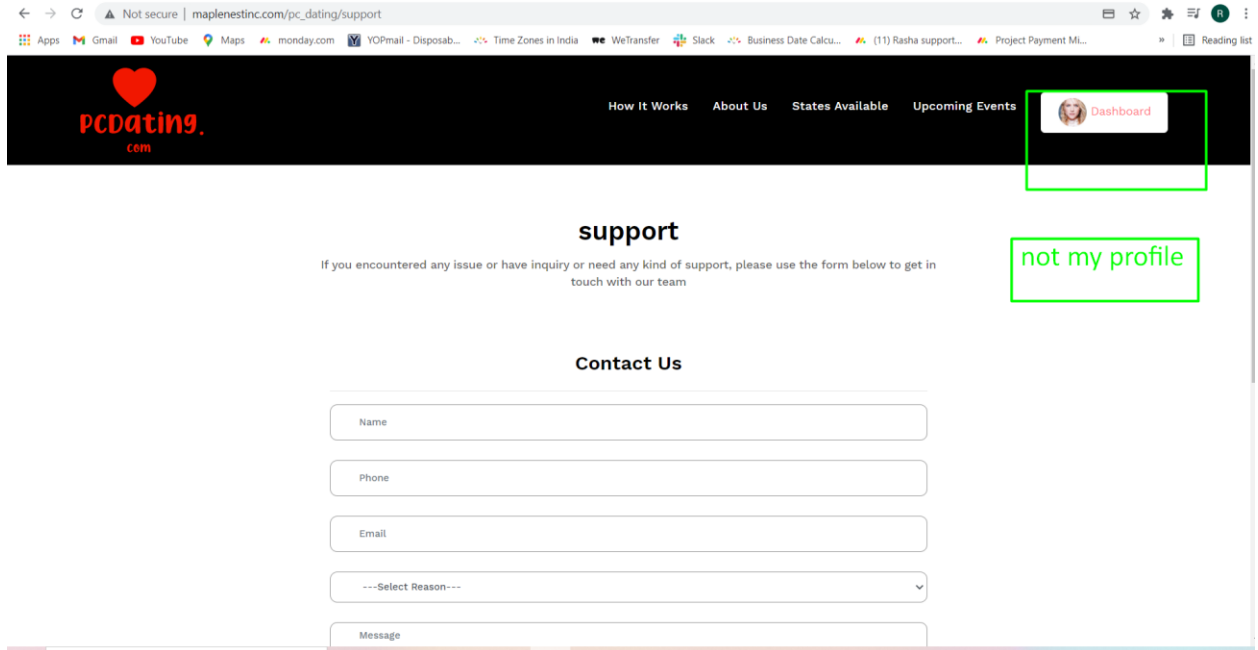

Client need free account Admin and Sub admin to be there to supervise chatting room

Upcoming and Previous Events

This will be for 1 event

This the current design

We need the video chatting and zones
Next meeting we will go through admin
